

## Mimbus Inc

MIMBUS creates innovative solutions targeted at preserving trade skills. The company offers intuitive pedagogical tools coupled with performing simulators, supporting businesses, corporate academies and training institutions to deploy and manage learning solutions as well as developing bespoke training programs. Based in France, MIMBUS has a presence in 50 countries.

### AIMS

At Mimbus we intend to improve training methods/programs and increase talent detection at the earliest stage.  
The industry is facing a huge gap of workers. Mimbus is dedicated to help the industry and training center with recruiting, attracting and properly training the workers of tomorrow.

### PRODUCTION

We are creating on shelf VR and AR solutions for training manual trades. We cover more than 20 trades: Electricity, Refrigerant – HVAC, Maintenance, Production Line operator, Woodworking, Security on a worksite, Scaffolding, Sawmill operator, welding. All these solutions are trackable on our LMS (learning management system) and can be personalized at costs.

### BENEFITS

Our solutions are an answer to many challenges:

- make vocational training an attractive option
- Decrease the risks of accidents
- Reduce the training time
- Decrease your training costs
- Follow up your trainee's skill acquisition in real time
