Service

A key word: modularity

Droids transport loads collaboratively or completely autonomously

Collaborative : Follow-me

Autonomous

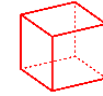

5G remote control

- Custom droids to meet the expectations of each job
- They carry, they track trailers for all your logistics tasks

50 to 450 kg

40 to 1000 liters

7 km/h

12 to 25 km/h

10 to 25 km

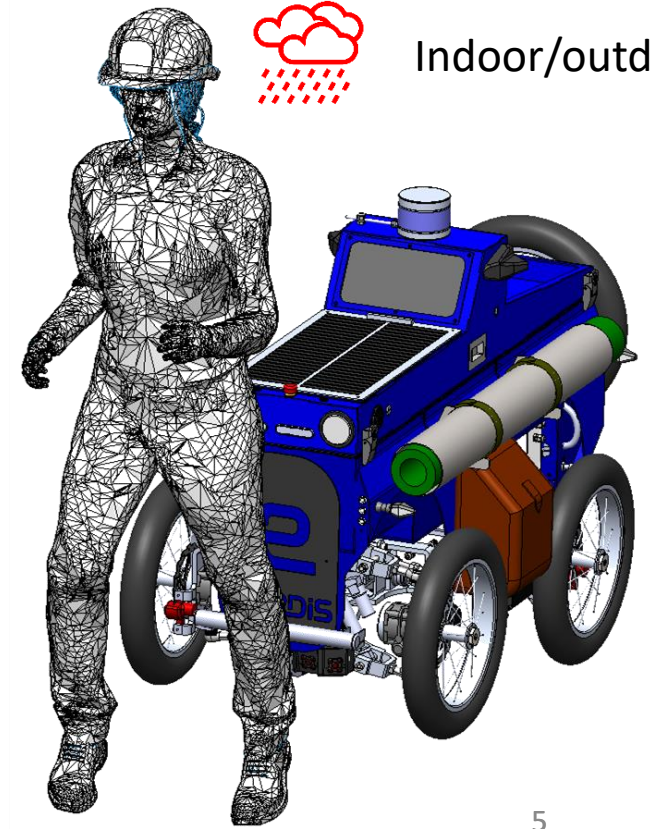

0 to 500 kg

indoor

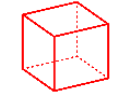

Last mile delivery on demand

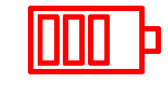

40 to 600 kg

12 to 45 km/h

40 to 1000 liters

15 to 35 km

7 km/h

0 to 500 kg
